📍 Madanapalli India

Technical Skill

- Proficient in HTML5, CSS3, and JavaScript (ES6+).
- Strong experience with modern frontend libraries and frameworks, such as React or Vue.js.
- Solid understanding of UX principles and methodologies, including user research, wireframing, and prototyping.
- Strong knowledge of client-side scripting and AJAX techniques for dynamic web application.
- Familiarity with backend technologies such as Node.js, Express, and RESTful APIs.
- Ability to build and maintain databases using technologies like MongoDB, MySQL, or PostgreSQL
- Version Control .
- API Integration .

Soft Skill

- Problem Solving
- Creativity
- Agile Methodology
- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- Global Institute of Engineering and Technology

  Bachelor of Engineering

  Completed in 2021

- Islamiah Girls Higher Secondary School

  High School Degree

  Completed in 2017

About Me

Experienced Full-Stack Software Engineer with a proven track record in frontend development and a dedicated focus on delivering exceptional User Experience (UX) solutions. Equipped with a deep understanding of the intricate interplay between design aesthetics, intuitive interfaces, and robust functionality. Passionate about creating user-centric applications that resonate with audiences and drive meaningful interactions. Adept at rapid prototyping and iterative design, continuously refining products based on user feedback and industry best practices. Collaborative team player skilled in cross-functional coordination, seamlessly integrating models and services to produce cutting-edge software. Leveraging a comprehensive toolkit of technical skills, I'm committed to shaping the future of multimodal models and user interactions.

Professional Experience

AltaRiz private limited solutions. | Full-Stack Developer
2022 – Present

Key responsibilities:
- Led frontend development efforts, collaborating closely with researchers and designers to create engaging and user-centric interfaces for multimodal models.
- Played a pivotal role in defining user interaction patterns for state-of-the-art models, contributing to the evolution of model training strategies.
- Leveraged a deep understanding of Human-Computer Interaction (HCI) and UX principles to inform design decisions and enhance overall user satisfaction.

Social Prachar | Frontend Developer
2021 – 2022

Key responsibilities:
- Collaborated with designers to translate wireframes and mockups into polished and responsive user interfaces, ensuring optimal visual and functional alignment.
- Worked closely with the backend team to design and implement API integrations, enabling seamless data exchange between the frontend and backend systems.
- Actively participated in code reviews, providing constructive feedback and suggestions to peers to maintain code quality and consistency.
- Stayed up-to-date with industry trends and best practices, integrating emerging technologies to enhance the frontend development process.

Achievements

2018	Machine learning Hackathon Certification by IIT Madras
2019	Participated in Hackathon at Abdul Hakeem College, Tamilnadu
